

 BERETTA

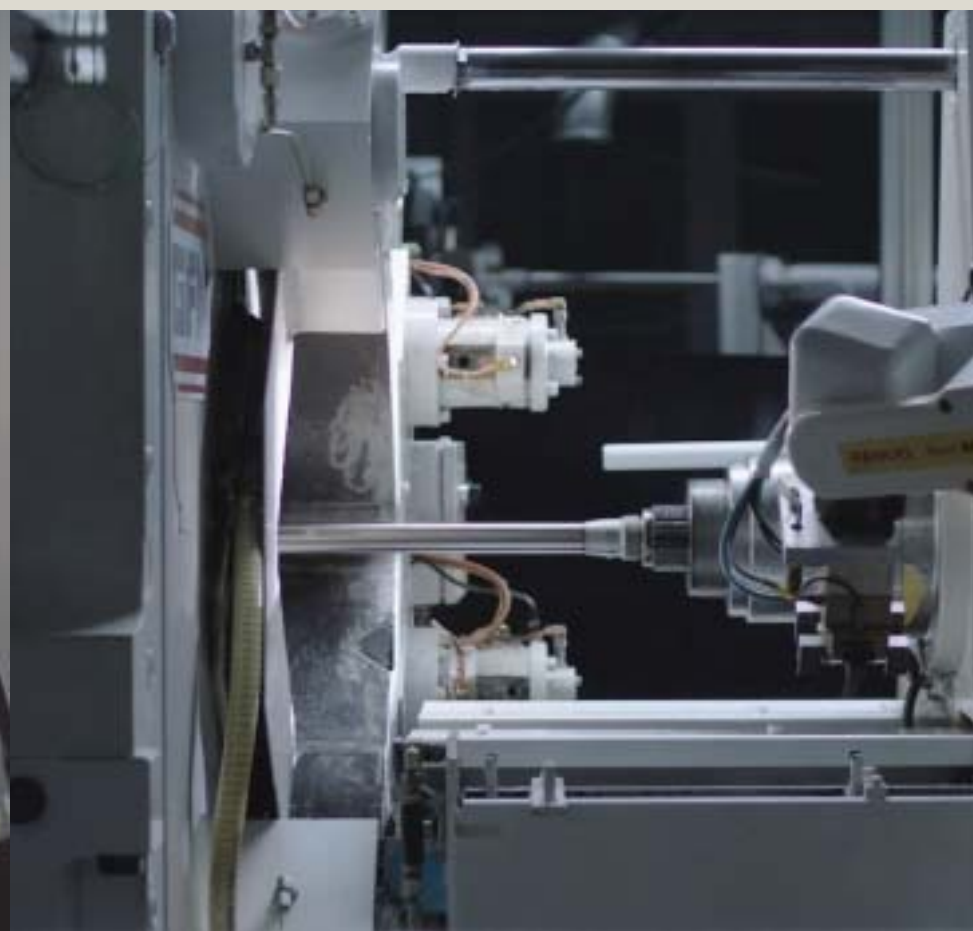

CATALOGUE 2016

A NEW YEAR HUNTING THE WILDEST EMOTIONS

500 YEARS OF MANUFACTURING TRADITION

Welcome to Beretta, where 500 years of tradition go hand in hand with the most advanced technologies, to create what we call “Technological Craftmanship”.

Tradition is invaluable, especially if handed down for 15 generations for nearly 500 years. And even if it would be enough to make us unique in the world, there is another aspect that reinforces the leadership of Beretta: the ability to combine every day this centenary experience with state-of-the-art technology, innovation and progress. It is not a trivial matter: it is what distinguishes the Beretta product from any other and it is, at the same time, the reason why of its high quality and performance. And today that new technologies are becoming an essential part even in outdoor activities, Beretta is at the forefront to bring the benefits of this technological revolution to hunters and shooters around the World, always respecting tradition. That's why owning a Beretta product means belonging to a unique club, open to people looking with determination to the future with a view that only 500 years of history allow.

**GUN
POD
2**

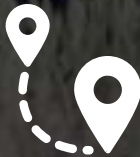

NEW GUNPOD 2.YOUR FIRST DIGITAL HUNTING DIARY,INTUITIVE AND EASY TO USE.STOP WONDERING HOW MANY ROUNDS YOU SHOT LAST MONTH OR HOW MANY MILES YOU WALKED WITH YOUR DOG: GUNPOD 2 WILL HOLD THESE STATISTICS FOR YOU! THE HIGHLIGHTS OF YOUR HUNTING SESSIONS,ALONG WITH PHOTOS AND VIDEOS, FINALLY COLLECTED IN A HANDY DIGITAL ARCHIVE.AND IF YOU WANT TO SHARE ON SOCIAL NETWORKS? WITH GUNPOD 2 YOU CAN.

**Using the GunPod 2 is very easy:
you just have to launch the app, start
a session, put your smartphone in a
pocket and GunPod 2 will do the rest.**

**15
Shots**

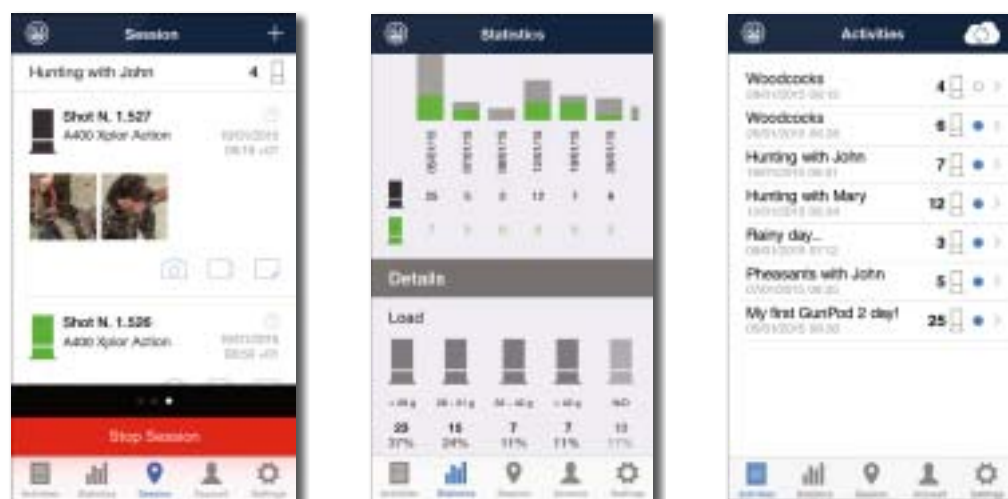

**5,8
Km**

**974
Calories**

The mobile app will receive shot acknowledges from the shotgun and will collect all the relevant data in background for you, without distracting you from your hunting experience. And if you want to take photos or videos and add them to your session stream? Easier done than said. And when you come back home, a web dashboard will allow you to see again, on a bigger screen, the best moments of your day. You will not envy runners and cyclists anymore: finally hunters have their digital diary!

gunpod.beretta.com

GunPod 2 is available on:
A400 Xplor Action,
A400 Lite,
A400 Xtreme

The GunPod 2 system works thanks to a wireless shot counter integrated in the stock of the shotgun, communicating with your smartphone equipped with Bluetooth 4.0 Low Energy and the free GunPod 2 mobile app (no GPS is on board of the shotgun). The GunPod 2 app also provides support in case of need: your GPS coordinates are just a couple of swipes away, making it easier for you to share your position through an emergency call. The GunPod 2 app can be used also without the wireless shot counter. To learn more and to know the list of compatible smartphones (smartphone not included) please visit gunpod.beretta.com

The on-board wireless shot counter communicates in real time with the free GunPod 2 mobile app.

HUNTING

IT'S A TRADITION WE PASS DOWN THROUGH GENERATIONS, FROM FATHER TO SON, REMINDING US OUR MOST GENUINE VALUES. FOR THOSE WHO LOVE HUNTING AND THE OUTDOOR, BERETTA OFFERS A WIDE RANGE OF PRODUCTS SPECIFICALLY DESIGNED TO PROVIDE COMFORT, SAFETY, HIGH PERFORMANCE AND ALL THE QUALITY THAT ONLY 500 YEARS OF EXPERTISE CAN GUARANTEE.

The A400 technological features

WORLD'S BEST BARRELS

1 STEELIUM

Steelium is the production technology of the Beretta barrels, making the special tri-alloy steel become an outstanding ballistic jewel, thanks to a manufacturing process that is just as unique. Gundrilling, cold hammer forging special vacuum relieving give steel the ideal mechanical characteristic for superior ballistic performance.

PERFECT BALLISTICS

2 OPTIMABORE HP

With a production begun in 1526, now accounting for more than 500.000 barrels a year, Beretta is a world leader in technological research applied to ballistics. The Optimabore HP technology, combined with Steelium, provides excellent accuracy and pattern quality with both lead and Steel HP shots.

36% FASTER AND CLEANER

3 BLINK

Blink is the engine of every A400 shotgun, providing exceptional reloading speed combined with power and cleanness at the top of the category. Being the fastest to fire the next shot means increasing the chance of hitting the target.

SOFTER & LIGHTER THAN RUBBER

4 MicroCore

Microcore is an innovative recoil pad developed by Beretta thanks to its experience in decades of competiti ons around the world. Thanks to the open cell technopolymer - softer, lighter and more slippery than rubber - Microcore expands gradually and instantly, increasing its surface area on the shoulder and giving the shotgun secure and precise support.

A 400

A400 is the most technologic semiautomatic platform ever built by Beretta, featuring some of the most innovative technological solutions in the shotgun market. The ballistic excellence of the Steelium barrel, together with the unrivaled shock absorption of the Kick-Off systems, the reliability of the B-Link gas operating system and the benefits of the GunPod digital tools make the A400 a point of reference in the world of shotguns.

semiautomatic.beretta.com

The A400 range features a wide choice of left-handed versions.

A 350 / A 300

The A350 / A300 range offers maximum reliability and durability at a very interesting price. The A350 Xtrema and A300 Outlander are designed for both the upland and waterfowl hunting.

**YOUR DIGITAL
HUNTING DIARY
INTUITIVE
AND EASY TO USE**

Stop wondering how many rounds you shot last month or how many miles you walked with your dog: GunPod 2 will hold these statistics for you! The highlights of your hunting sessions, along with photos and videos, finally collected in a handy digital archive. And if you want to share on social networks? With GunPod 2 you can.

**100% PROTECTION
FROM CORROSION**

In models equipped with AQUA technologies, all the internal parts are protected against rust and corrosion, while bolt, carrier and trigger are antireflective-treated. The barrel is internally chromed and externally coated to offer the best protection even in the worst conditions.

**FAST
LOCKING**

B-Lok allows secure and fast forend's cap closing in fractions of a second and with just a 60 degrees rotation. The design of the cap makes the handling easy even with gloves on.

**WORLD'S BEST
RECOIL ABSORPTION
AND MUZZLE
RAISE REDUCTION**

Kick-Off is the only recoil reduction system in the world using technologies similar to the automotive ones, to provide up to 70% shock absorption. In its PLUS and MEGA versions, the Kick-Off system provides even more benefits, specifically tailored on the needs particular types of hunting.

NEW
20 GAUGE

690 FIELD III

New 690 Field III.

The traditional Beretta over and under has been combined with the highest technology to create this beautiful, accurate and elegant shotgun. Steelium barrels guarantee absolute precision while minimising weight, creating a jewel of a gun. Welcome to Beretta's perfect fusion of technology and tradition.

Technical features:

- ① **Microcore pad**
Superior softness, lightness and smoothness for the best recoil pad ever made by Beretta.
- ② **Optimabore HP**
Interchangeable-chokes barrels, designed for the best performance with both lead and HP steel shots.
- ③ **Steelium barrels**
The world's best barrel, providing unrivaled safety and superior ballistics.
- ④ **New rollmarked engraving**
The engraving, for sure one of the world's best in its category, is completely rollmarked.
- ⑤ **Solid-base top rib**
The 690 Field III top rib has a solid base enhancing the look - this solution is not typical in this price segment.
- ⑥ **Grade 2,5+ wood**
Selected wood grade, enriched by the exclusive Beretta BTS finishing.
- ⑦ **Slim forend**
Slim and rounded forend, for a better grip and a more streamlined profile.
- ⑧ **Outstanding reveiver**
The receiver features a double-fenced top, typical of the most refined over & unders.

686 Silver Pigeon Ultralight

The traditional 686/687 and Ultralight represented the Beretta over & under worldwide in the last 3 decades.

Strong like only steel can be and available in 4 gauges and in a wide range of barrel lengths and types, these products are still trusted companions of hunters around the globe.

The Mobilchoke barrels are practically eternal, confirming that a Beretta over and under is much more than an extraordinary shotgun: it's something you can pass down through generations.

NEW
20 & 28 GAUGE

486 ^{by} Marc Newson.

“To be asked to design for Beretta, one of the oldest companies in the world with its roots in the Italian Renaissance, was a great honour.

One of the things I like most about my job as a designer is the opportunity I get to immerse myself in different industries and acquire knowledge about their manufacturing processes, materials and technologies.

I am interested in the way things work – it’s a technical obsession. The main focus for my design of the 486 was to simplify and rationalise all the surfaces. Specifically streamlining the area of the action.

During the manufacture of my design in the Beretta workshops I got to observe the fascinating mix of traditional skills employed by Beretta’s craftsmen in conjunction with the most impressive state-of-the-art engineering processes including the use of intricate x-ray equipment, sophisticated laser technology and robotics.

With these standards of ingenuity I believe that my vision to create an innovative and modern design while respecting the DNA of the product typology has been spectacularly achieved.”

Marc Newson

Technological features

- ① **Edgeless receiver**
The traditional design of side by side shotguns has always been very simple and elegant. Over the years, the “round body” design has been introduced to emphasize the slimness and lightness of the gun. Marc Newson has used the characteristics of steel and modern machining to elevate the concept of the “round body”, bringing it to a new level. The receiver is edgeless and the lines flow through the entire surface of the shotgun with no sharp edges or breaks.
- ② **New lever design**
This element has been specially conceived to emphasize its independence from the rest of the shotgun.
- ③ **Wood-bridge**
The traditional tail of the receiver has been lowered allowing the wood to separate the receiver and the safety/selector like a wooden bridge over the steel. This unique design makes the 486 by Marc Newson extremely elegant and instantly recognizable.

Available in 12, 20 and 28 gauge.

486bymarcnewson.beretta.com

486 *Parallelo*

486 Parallelo. Surprisingly light and easy-handling, the new 486 Parallelo Beretta unites the charm of the best gunsmithing tradition with the round body receiver design and with the modern and innovative technology. The result is a classic and elegant look that will never be out of date. A shotgun which is, on the same time, a reliable, safe and accurate firearm.

Technological features:

1 **Ultra-safe**

An exclusive Beretta safety blocks the trigger preventing the accidental discharge when the shotgun is found in an anomalous position (fully upside down or pointed downwards/upwards past 90°), or in case the shotgun falls or is dropped.

2 Exclusive Triblock technology
The barrels are matched thanks to the new Beretta Triblock system in order to deliver superior aesthetic and elegance which reflect the style of the classic demibloc shotguns. The care taken in producing the tapered external profile of the tubes enhances the instinctive aiming.

3 Unique trigger mechanism
The trigger mechanism is extremely reliable thanks to the "V" shaped hammer springs and to the rebounding hammers which guarantee crisp and fast trigger pulls. The trigger plate contains all the parts of the firing mechanism, assuring faster and easier disassembly for cleaning and inspection.

4 Timeless round-body receiver
The receiver design marries the best gunsmithing tradition of the classic round body profile

5 **Environmentally friendly ejection / extraction selector**

The exclusive selector switch, located on the fore-end iron, provides for automatic ejection or manual extraction, which is an environmentally friendly way of keeping spent shells from littering fields.

6 Slim forend
The fore-end features a push-button release mechanism located on the fore-end tip. The fore-end iron presents an adjusting device in order to maintain a constant tip fore-end iron fit. The result is an increase functionality and life of the parts.

7 Selected woods
The woods used for the stock and fore-end are carefully selected for their colour, grain and figuring. The shotgun masses are correctly distributed and the balance is factory set for each unit in order to guarantee the best swing while shooting.

COMPETITION

BERETTA WON ITS FIRST OLYMPIC GOLD MEDAL IN COMPETITION SHOOTING IN MELBOURNE, 1956. SINCE THEN, MANY VICTORIES IN THE MAJOR COMPETITIONS WORLDWIDE CAME, FROM ROME 1960 UP TO THE SKEET GOLD MEDAL OF VINCENT HANCOCK AT THE OLYMPIC GAMES IN LONDON (2012), TOGETHER WITH THE SKEET SILVER MEDAL OF WEI NING AND THE BRONZE MEDAL OF AL-ATTIYA. ALL THIS WITHOUT MENTIONING THE HUGE NUMBER OF MEDALS WON AT THE WORLD CHAMPIONSHIPS SINCE 1978. FOR OVER HALF A CENTURY, BERETTA HAS BEEN TAKING ITS SPORTING VOCATION AROUND THE WORLD, EARNING THE RECORD FOR THE HIGHEST NUMBER OF VICTORIES IN INTERNATIONAL EVENTS FOR COMPETITION SHOTGUNS. THE HIGH-QUALITY AND WIDE PRODUCT RANGE TODAY ALLOWS BERETTA TO COMPETE IN ALL THE SHOOTING DISCIPLINES, INCLUDING TRAP, D-TRAP, SKEET, ELECTROCIBLES AND SPORTING. **TRANSLATED INTO FIGURES, THE SUCCESS OF BERETTA IN INTERNATIONAL SHOOTING COMPETITIONS ACCOUNTS A TOTAL OF 146 GOLD, 146 SILVER AND 139 BRONZE MEDALS. IN OLYMPIC GAMES, 14 GOLD, 11 SILVER AND 12 BRONZE MEDALS.**

DT 11

The highest expression of the Beretta competition over & under, DT11 is pure technology applied to clay-target shooting. Thanks to its features - Steelium PRO, wide receiver, B-Fast, adjustable and removable trigger group among all - DT11 is the choice of Olympic Champions, World champions and thousands of shooters worldwide as well.

692

692 brings all the ease of handling of the renowned 682 together with some of the most technological solutions today available on competition over and unders like Steelium PLUS, wider receiver, B-Fast and the exclusive overmoulded soft-touch opening lever. A true race-shotgun!

690

Young, clever, precise and strong. This new black 690 is designed to provide a very technical configuration and a distinctive design to ambitious shooters, to those who entered competitions dreaming to be the Olympic Champion of tomorrow.

686 SILVER PIGEON I

NOT ALL THE CONFIGURATION COMBINATIONS MAY BE AVAILABLE IN EVERY COUNTRY. PLEASE CHECK AVAILABILITY WITH THE LOCAL DISTRIBUTOR OR WITH THE BERETTA CUSTOMER SERVICE.
NOTES: OCHP = Optimachoke HP, OC = Optimachoke, MC = Mobilchoke, S = Single trigger, SS = Single selective trigger, D = Double trigger, MTM = Made to measure, H = Headed, KO = Kick-Off, KO+ = Kick-Off Plus, KOm = Kick-Off Mega, PPL = Polipropilene, MS = Swivels (mounted), S = Swivels (not mounted), PPAD = Plastic pad, RPM = Rubber pad (medium), SCS = Auto-cleaning piston, SPP = Adj. drop plates (kit), AR = Recoil reducer, MAR = Quick-attach swivels, XG = XtraGrain, GP = GunPod 2, Lylum = Steel HP test, ABS special = Covered with textile and refined internally, FW-TR = Finished wood or rubber (thin), FW-RR = Finished wood or red rubber. All the A400 semiautomatic shotguns feature Optimabore HP barrels with OCHP chokes. Pairs are available on request (price +20% versus the price of the two single shotguns) with 687 EELL Diamond Pigeon, 687 Classic, Giubileo, SO6 EELL and SO10. * on request. ** Price and timing to be defined for each single order based on finishing, wood grade and engraving. The SO6 EELL and SO10 EELL over and unders are made only with specail orders. On request, these products can be customized up to the maximum level (feasibility to be checked with our master engravers and gunsmiths).
